XPONENT
MINISTRIES

Today there is such a great need to train church planting disciples who will plant Bible believing gospel preaching churches in sub-Saharan Africa.

Civil wars, politically motivated atrocities, AIDS, and the rapid advancement of Islam have hit this continent incredibly hard and stripped it's people of hope.

We at **XPONENT Ministries** felt the incredible need to not only train disciples but to combine a discipleship program with church planting at the core. We wanted a program which can be sustained, reproduced and empowered on a regional or local level in cooperation with a national strategy and eternal focus.

As we start developing the long term national plan for each country, we constantly ask ourselves these four questions:

- * **Will this decision give God the glory?**
- * **Will this decision limit God some way?**
- * **Is it indigenous/national led?**
- * **Is it sustainable?**

In each of the countries in which God leads us, there are 5 vital needs universal to each nation that will help establish Xponent Ministries. The really cool thing is that we have made it so easy for you to have a substantial part as you invest in eternity one gift and prayer at a time!

- 1) **Graduation gowns**—graduations are central to our ministry and every nation needs their own supply. Every gown represents many new believers and new churches!
- 2) **Copier**—though we have made hundreds of thousands of copies at shops, we have need of our own copier in the office to save money for our students and discipleship centers.
- 3) **Translations**—though we have the materials in English and Swahili, in order to reach the unreached in each nation, we must have the materials in their language to present the gospel well.
- 4) **Executive Leadership**—our top executive-leaders are still not fully supported financially. They are the ones that make it all happen yet they struggle each month.
- 5) **National Registration**—in order to effectively minister in each nation, soon after we have a stable presence, we will start the process of registering Xponent Ministries with the national government which involves lawyers, time, and \$\$.
